"5 Minute Relaxation" is a simple application designed to be your personal personal relaxation tool. It uses your iPhone's built-in microphone to pick up sound, then processes it and converts it into an app that will help you relax. Just pick your sound and start relaxing! Once your session has finished, just tap the "Stop" button and your session will be saved to your "Sessions" folder, where you can access it anytime you need it. You can always see how many times you've already used the

app, as well as see your "Most Used" items, or "Best of Month." The "Information" tab will tell you everything you need to know about this app, such as its features, how it works, how to access your "Sessions" folder, and much more. Additional Information: - 5 Minute Relaxation is free, it is available at the App Store for \$0.99. - 5 Minute Relaxation can be used on the iPhone, iPod touch, and iPad. - You can find out more about us by visiting our website at We are so excited to have our friend and video gamer extraordinaire, Tommy O'Malley joining us for another

Friday Fights! We asked Tommy to create a "medieval" theme for the whole party, and here are a few more medieval images for you to check out. For more great character art, visit our desktop and mobile game websites: www.superbrothers.com www.superbrothers.mobi I will be available during the hour to answer your questions or Skype in. Check out the Facebook fan page for more, or read our interview with Tommy on the same page. Please check the comments for updates on this and other weekly Friday Fights. In this week's Friday Fight, we have two

members from the SuperBrothers team creating two of their favorite characters in character design. They are the polar opposite of each other and their characters will be featured on the new Superbrothers Flash animated web series, which starts this week! Matthew Lee and Sam Wills wanted to go from abstract to realistic with their character designs. Matthew: I like fantasy, so I thought we would use the concept of the sorcerer. For the 'magic' of the sorcerer, I like the idea of this type of figure walking with a low stance, high head and long arms, as if in a meditation

5 Minute Relaxation is a time tested application that offers you a full 5 minutes of relaxing sounds and voice-overs that will help you relax and get rid of your everyday stress. The application is simple to use, clean, and offers a high quality experience. Get the free 5 Minute Relaxation app for Android to improve your overall mood and have a better day!

Download 5 Minute Relaxation to improve your mood and get rid of your stress! It's easy to get stressed over nothing and it's hard to get back

to a state of calmness, that is why an application such as 5 Minute Relaxation can come in handy for when you need a moment to just forget about everything. An efficient relaxation tool Since the whole point of the application is to help you relax, it doesn't bother filling your head with unnecessary details, icons, tabs, and options. All you have to do is choose the session you want, and whether you want to end it by sleeping or walking, and the app will adapt accordingly. You will be accompanied by 5 minutes of soothing voice-overs and relaxing

sounds, all of them designed to bring peace to your troubled mind. For best results 5 Minute Relaxation recommends you wear headphones for the entire duration of the session and, if possible, avoid any situation that might cause you to be disturbed. Issues encountered during our tests One thing that was noticed is that the voice seems to be computer generated and monotonous, making the relaxation process less effective as opposed to how it would have been with a regular human voice. Another minor bug which was observed during testing was that the text from the

"Information" tab repeated itself. The last thing worth mentioning is that if you minimize the window within the first five or six seconds of beginning your session, the sound will pause and will only resume upon maximizing the window again. A simple to use application Taking into consideration all benefits but also limitations, we can say that 5 Minute Relaxation gets the job done. The interface is simple, the sounds are good, the idea itself is excellent, and with a little polishing, it could become a very good relaxation tool. Characteristics of highly soluble Na^+ , K^+ -ATPase with respect to

the long-range structure of the enzyme. The R and non-R forms of highly soluble Na⁺,K⁽⁺⁾-ATPase (sNa,K-ATPase) from pig kidney have been purified by density gradient centrifugation, affinity chromatography on heparin-Sepharose and affinity chromatography on anti-R form antibodies. Both subunits of sNa,K-ATPase consist of two monomers. The high binding capacity of the enzyme for ouabain is due to large amounts of high-affinity [3H]ouabain binding sites which are present on both R and non
