ShowStream Download With Full Crack is live internet performances, streaming to audiences of up to 800 simultaneously. ShowStream is a plug-and-play application for music groups to turn the Internet into a new venue for performances. Stream your music online, or perform your music in multiple locations simultaneously with the help of the world's only website streaming service, The Internet. ShowStream enables your audience to listen to your music over the Internet. The service operates in conjunction with the The Internet website by providing a server to host the audio files for your performance. The worldwide audience for these performances can listen to your music over the Internet via a computer or other IP device (e.g. Internet Phone, IPad, iPhone, etc). Using the proper computer, the default port of TCP/ IP 80, your performance will be streamable for free. Once logged into the The Internet website, the user will click on the link that takes them to your performance. Once the user is streaming your music over the Internet, they will see the following basic info: 1. The host name 2. The Sound Name 3. The Host IP Address 4. The Port No. 5. The Band Name 6. The Band URL 7. The Band Size 8. The Band Date Once logged on, the user will be able to click an item in the right corner of the player to open a the "settings" area. This area will allow the user to choose among three different type of performance dates: 1. Concert Time 2. Band Information 3. Band CD's or MP3's If they have any questions regarding your performance, you can visit the chat box after clicking the "Exit" button at the bottom of the page. ShowStream is Live Networked Once registered to The Internet website, your performance will be streamable on the network for up to 7 days. During this time, the user can open the chat box, refresh the page, or log off and return later to be notified that the network is offline.
