This game is fully voice acted with English, Japanese, and Chinese texts. Choose an option from the menu to start the story. All dialogues and choices are in Japanese. There are two ways to play: Story Mode: Story Mode consists of four episodes. You can choose to start Episode 1 or Episode 4. You can also skip to the next episode without leaving the previous screen. After you finish the episode, there is a non-linear 'quest' mode that allows you to choose any order of events. If you go to the main menu you will be given a choice to play either a short scenario or a full-length story. You can also skip parts of the story during quests. Mystery Mode: Mystery Mode is essentially a prequel to the main story. It is only playable after you have finished Story Mode. Endless Mode: You can play this mode endlessly, and there is also an option to go back to the beginning or the ending. It is self-explanatory as to how that works. A brief explanation of the game! (via CDJapan) Link to the Story Mode or Mystery Mode with English Support (!) thanks to: MiyaSako for the awesome storyboard for Episode 1 Niwasaka Rira and Shionomiya Richer for their involvement in this project Support: CDJapan This is the US version of the game.
