This lovingly remastered version of a classic 16-bit classic brings a spellbinding breath of retro-style delight to the latest generation of games. The Atari 2600 game's easy-to-pick-up gameplay and retro graphics have been lovingly recreated using the latest tools to bring the early game to life like never before. The classic gameplay features your first attempt at the course set against an impossibly cute, surreal backdrop. The original innovative on-screen control pad keys (look here if you haven't seen the original game) have been replaced with the touchscreen and the game will now work on a wide variety of devices. There are various difficulties to choose from and the action can be played in either one-player or two-player split-screen. You can also see the action from behind and/or to the left and right using the in-game view slider. Amaze your friends and family with the nostalgia factor when you play this seminal game that came to define the genre.

Q: VBA to copy file to a folder in a network drive I have a file in a folder in a network drive and I need to copy this file on to the same folder on each workstation in the network. Right now I do it the way I know it to be done. Workbooks.Open Filename:=directorypath & savedate(month) & "-" & day & "-" & year & " - " & number & ".xlsx" FileCopy "C:\localpath & savedate(month) & "-" & day & "-" & year & " - " & number & ".xlsx", "C:\localpath & savedate(month) & "-" & day & "-" & year & " - " & number & ".xlsx" How can this be done via VBA? A: Your code almost there, using the Shell command, just make sure your file paths to the network drive is correct Sub CopyFile() Dim NetworkDrive As String Dim Filename As String Dim FullPath As String FullPath = "C:\localpath & savedate(month) & "-" & day & "-" & year & " - " & number & ".xlsx" Set NetworkDrive = "\\Machine Name" Filename = "Filename.x

Tiny has been polishing his skills to great effect for the last year, evolving his gaming credentials in terms of graphical fidelity, artistic flair, and game design. (Tiny includes references to the ESRB, Ubisoft, and Square Enix in his previous writing.) I asked Tiny what inspired him to write this post. "I decided to write about it [Whispers of the Heart], as I find nostalgia in many games I play and I like to write about those as well," he replied. "I do like to have fun at what I do; so I wanted to write about some of those games that inspired me to start playing games in the first place." Tiny went on to note that he first had his first game moments in the early 1990s, specifically when he would play "final fantasy and the like" on his father's Tandy TRS-80 during high school. "But it was Mario Bros. and some of the other NES games that hooked me." Tiny also found inspiration in games that, "went beyond the simple graphical fun of games like TMNT. A game like Spy Hunter was the best to me; it was one of the first games I got a joystick for and I remember sitting at home playing that over and over again." At the age of 9 or 10, Tiny moved to a suburb in Washington State, where he found himself playing games on a TI-99/4A. "So I started with that game and quickly got to TMNT and SNES/N64 games. I eventually got a CD-Rom drive and I played quite a bit of DOOM and other games." This was around the time Tiny developed a serious interest in art. "I even had art classes that year, though I didn't like that too much." For Tiny, "the game that made me stop thinking about art and start doing art" was a PC game called Thief, which, "gave me a way to see and understand how to manipulate textures and combine them to make a cool looking scene. It helped me draw characters, too." After a few years of art classes, Tiny did a couple of different jobs and he found himself working at "a pretty large arcade as a game manager." While he worked there, "I still played games but not a ton" due to the hectic nature of his work schedule. At this time, "I was introduced to the PS1, and I remember playing games like Resident Evil on that system. That's when I started to play games more

: H.M.S. Pinafore The Maud. The Tin Man. The Wild Pansy. The Pinafore. When I was a little girl, I received one of the first of a series of new textbooks for fifth grade, along with a leather binder for my homework. My mother usually made sure I was turning my lessons in proper order, even if I was the slowest student at the table, so when a thick, plain brown cover caught my eye one day before school, I couldn't wait to find out what lay inside. The blue and white title on the front cover caught my eye, and I couldn't wait to flip it over to find out what was inside. I'd never heard of it before, but a title

called “Workshop” sounded interesting. Papa says that I must always be on my best behavior in class, where I hear things I cannot repeat. No, I cannot repeat what I did last week, for I simply could not remember what I did. However, this book, I am sure of, the name of the book is Pinafore. I think I know what it means now, as I have heard of pirates and a farce. I do not know what a farce is, but it must be a great play, for it was called The Pinafore. Oh, I am quite sure, I am very close to remembering what a pinafore is, but before I was so certain, Papa had to explain it to me. Papa goes into a great deal of explanation and talk about getting ready to eat dinner when we were playing together, but I still didn’t understand what a pinafore was for. I knew it was some kind of dress, because Papa had a pinafore on when he was sitting at the table, but I didn’t know what one was exactly. One day, I found out. When the cupboard door swung open, revealing a rainbow of delicious juices and milk, I felt like a little pig in a trough. I couldn’t drink any of the milk and juices, so I had to pour them out, but there was juice for me. “You will never get to go to the classroom if you won’t eat your dinner right away,” Papa boomed. “It’s just like a dishcloth.” Well
