This includes all further cases we have identified in the ongoing chikungunya outbreak in Nigeria, which is to date the only instance of an outbreak of chikungunya in the world. On the basis of this information, we may not have detected all chikungunya cases in the Netherlands and Belgium in 2016. We are continually monitoring the situation in Europe, with particular attention paid to the cluster of chikungunya patients in Bulgaria. being managed, by autonomous means, the speed of the vehicle within the operational boundaries as indicated by the system. According to a modification of the inventive method and system, the step of ascertaining said unavailability comprises the steps of: (a) a) when the speed of the vehicle is less than a first threshold speed, the vehicle being managed, by autonomous means, the speed of the vehicle within the operational boundaries as indicated by the system; and b) when the speed of the vehicle is not less than the first threshold speed, if the vehicle moves with a speed faster than a second threshold speed then, the vehicle being managed, by autonomous means, the speed of the vehicle within the operational boundaries as indicated by the system, and if the speed of the vehicle is less than the second threshold speed, then, a warning is issued to the driver, the warning stating that the speed of the vehicle is less than the second threshold speed. According to the method and system according to the invention,

The aim of the study was the investigation of morphometric parameters of bone tissue structures with view to discover peculiarities of the periodontal lesions in patients with type 2 diabetes mellitus (DM-2). In a group of 71 DM-2 and 64 healthy subjects the number of bone-to-bone cement-contact sites was assessed by the parametric indices. The DM-2 patients had a smaller number of bone-to-bone cement-contact sites. In the group of DM-2, 3.6% of these contact sites had the type
