Your objective is to free the universe of Skor and avoid being trapped in the Distant Mars system. Today, the Project was launched to support the first wave of Giveaways. For those who have not had the chance to play around with this new platform yet, I do highly recommend it. Numerous Baka-Tsuki titles are exploring the genre of visual novels, with a more unique approach. Grisaia: Phantom Trigger is the latest title of the series, and has been written and drawn by series' veteran Akio Watanabe and Ryuta Fujisaki. The characters in the game are defined only by word, as the user moves through them via pre-scripted dialogue, symbolic actions, and other events. The story is driven by the user's choices, and not by artificial intelligence. The choices the user makes will determine their life in the world of Grisaia. With no graphics, the world of Grisaia is "recreated" by the reaction of the characters at the user's decisions. There are three scenes where the user can choose a scene of interaction with a character, and a fourth where all the choices of the other events are considered before the choice is made. There are a total of 16 characters in Grisaia. As for the three heroines, the story begins with Arisaka Shiori, followed by the third heroine, Suzu. Afterwards, two characters will appear, depending on the user's choices. Grisaia: Phantom Trigger is a kinetic novel that is calculated from the very start. In fact, the user will be able to understand the game's dynamic and the characters' reactions through simple visual markers. Grisaia: Phantom Trigger is the title where the player's choices affect the story, and each line of dialogue and action can lead to entirely different outcomes, showing what kind of reaction will come from each character. "Grisaia: Phantom Trigger" is the first title of the series to have an OVA, which will be included in the Limited Edition. About the developer Story of Grisaia: Phantom Trigger is written and drawn by Akio Watanabe. The scenario is based on the original scenario written by the renowned author Gochiyaru.
