Technical The Augmented Reality (AR) element of the FIFA World Cup Brazil™ 2018 kits was introduced on FIFA 19, with all 32 FUT Champions and nominees in the game. There are now 16 AR-themed FIFA World Cup Brazil™ 2018 kits – featuring the 16FUT Champions and 16FUT Nominations. For FIFA World Cup Brazil™ 2018, every club and country also has a corresponding AR club or national jersey in FIFA 19. FIFA has also introduced a refreshed Main Menu for FIFA 19 which emphasises the tools and visual feedback available for players. The new Main Menu includes a multitude of new tools and customisation options including the new Training Tab, Digital Pass for your Player Card, Player Distribution control, Team options and Watch Tower. Additionally, the new Club Catalog will also provide a detailed snapshot of your club's squad, including easily identifiable names and even a snapshot of the number and colour of the kit worn on any given matchday. In addition, the Update Selection screen has been updated to make it more efficient to manage updates and revisions. As part of our PS4 FIFA 19 Update Release on 15th May 2018, we're adding a number of fixes and improvements related to the release of FIFA 19 Ultimate Team. This will include: It should be noted that not all the issues are being addressed or will be available during this update. Many of the fixes are being rolled out in the weeks following the release. We will continue to check the PS4 Store regularly and will provide more information on any further updates. The reason why we're posting this in the 'Possible Issues' section is because it is neither a bug nor a system-related issue, but more of a normal problem associated with the issues we've fixed. We'll be regularly monitoring the feedback and will update this thread if we need to make any future changes to this subject.

A novel MRI feature evaluation and dynamic model for clinical diagnosis of atypical neurodegenerative diseases. The development of imaging biomarkers, especially novel MRI features that sensitively characterize a specific feature of a neurodegenerative disease (ND) should be increasingly useful for the early diagnosis of neurodegenerative diseases such as Alzheimer's disease (AD) and progressive non-Alzheimer's dementia (PD). This study was designed to establish a novel MRI feature evaluation and dynamic model for diagnosing clinical NDs and to utilize MRI to serve

EA SPORTS FIFA 22, powered by EA SPORTS Football, brings the game even closer to the real thing. Better than ever, you and your friends can play and share the game that turns players into footballers. Play and create your own career, drive the action on the pitch, or join together in a brand new story-driven campaign. Whether you're playing FIFA on the pitch, taking on friends in online matches, competing for the ultimate FUT Champions trophy, or taking on authentic footballers, FIFA gives you the best version of football around. Player Shape: The ALL NEW Player Shape technology allows for a more lifelike, aggressive, and powerful player model. Players use the correct rotation and placement for each foot when they strike, kick, and run with the ball, giving them a more accurate, realistic body movement. Speed and Realism: The ALL NEW Ball Physics technology improves the responsiveness of the pitch, allowing the ball to move more realistically. Ball Response: The ALL NEW Ball Response technology reacts to how a player controls the ball, adapting the behaviour of the ball to suit the movement of the player. Dynamic Player Impact: With ALL NEW Player Impact technology, the player and ball are brought to life with a new quality of contact that improves the realism of both players and the ball. New Player AI: The ALL NEW Player AI technology is designed to allow new players on the pitch to be more involved, more intelligent, and to make them feel more like actual players in the game. The all new Player AI includes a greater variety of conversations between players on the pitch, especially during key moments of play. The all new Player AI is also designed to be easier to control and set up, making it more enjoyable for everyone. Improved Faces: The ALL NEW Facial scanning technology allows players to add and edit their own faces for improved personalisation options and greater player likeness. Unique Goalkeeper: The ALL NEW Goalkeeper AI is designed to give goalkeepers more unique skill sets, with accurate anticipation and controls to suit their position. New Career: In FIFA, there are now two completely new story-driven single player campaigns for an exciting FIFA experience with even more depth and choice. In-Game Depth: The ALL NEW Three-stage Player Development system allows for a much more nuanced player development process by providing players with different challenges to confront

## What's new in Fifa 22:

- **Introducing Player Motion Technology.** Using data collected from real-life players playing a complete high-intensity football match, Player Motion Technology brings a deeper connection between play and the game. Improved player movements animate the player with authenticity from boots to socks, enabling the player to feel more involved in their own performance.
  - Off-the-Ball AI. "Intelligent" AI decisions, like when to run, when to pass, or when to dribble opponents, round up the more cerebral elements of gameplay.
- **Mentions.** New animations deliver character-driven, newspaper-inspired mentions that will narrate aspects of gameplay and impact the crowd and the match. Players will jubilantly celebrate the goals of their teammates, while receiving ovation when they pull off a trick shot.
  - Dynamic Atmospheres. Feel the adrenaline as stadiums pulse to the chanting crowd and music of Fight Night.
- **The progression of Team of the Week.** FIFA 22 introduced "Player of the Match," an entirely new way for teams to earn the respect of fans with dynamic rewards. The brand-new mode gives fans the opportunity to name their favorite team in each round and earn exclusive new items and features.
  - Introducing, 'FIFA Ultimate Team'. 'EA SPORTS Ultimate Team' - this innovative new mode from the popular FIFA franchise - introduces a variety of brand-new player and gameplay modes to the franchise. It also introduces dynamic rewards, an all-new currency system, rarity, and more. 'FIFA Ultimate Team' will be available as a stand-alone game, via in-game purchase or as an expansion coming in FY23.
- **Capture the Game.** Leveraging the data from EA's new motion capture data suite, the 3D game engine has been refined to make it easier than ever to create a high-fidelity screenshot. Capture the Game now lets you take memorable moments from the game, such as a magical save, game-winning pass, or a goal-scoring shot.

FIFA is more than a football game. It is a football experience, and of course, an authentic experience. The deep integration of the 'Powered by Football' engine allows the game to perfectly reproduce every single aspect of the beautiful game. The 'Powered by Football' engine not only brings you a unique matchday atmosphere, but also delivers the most varied, authentic set of gameplay features. It is truly more than just a game. It is also a football experience.
