
DC - Unlocker 2 Client 1.00.0857

If you want or dont care, when you load DC that it will detect that but dont follow the prompt to get the "Official Factory" unlock code I have the iphone 4s (international) so it has a micro sim slot, and there are already unlocked micro sims on the phone, that have the proper unlock codes That's fine. I don't care. Click to expand... and there are over 5,100 users on the thread. But you expect everyone to do the unlock that's the only way to get the file on your phone if you dont know that there is on there (the official factory firmware) and there are over 5,100 users on the thread. But you expect everyone to do the unlock that's the only way to get the file on your phone if you dont know that there is on there (the official factory firmware) Click to expand... I'm not asking them to do that I'm asking someone here who does know how to unlock the phone to do it for me Also the window for entering the code is too small and this make it very hard to work with or at least I can't this is the only photo I could find for the chip, but you can see that there is an IC right below it but what seems to happen is that no matter what I do it will not want to unlock I've successfully unlocked a bunch of phones with the same method, but I can't seem to unlock this one (even though the same thing worked on a different phone) I can't get it to work. I've tried every combination of unlocking code and nothing seems to work I want to have a backup phone as my primary phone. I want the new unlocking code to work on the backup phone, and I want to have different unlocks on the two phones I have decided to do the unlocking in two phases, first I'll unlock the phone with my credit card and email address (to get the file on the phone), and then I'll unlock it with the official factory unlocking code once I get the file on the phone (to get it unlocked)

Hello everybody i have a problem with DC - Unlocker 2 Client 1.00.0857 : i have an iphone 4s / gsm+/european phone model i55b98n. i have tried to unlock the phone with the official 6d1f23a050
