Get up and download!

Download Master is a really simple extension that makes it easy to download all the files you want without going through individual browser dialogs. Just right-click the links you want to download and choose from a list of actions such as 'Copy Link Address', 'Copy Link Location' and 'Save Target As'. Just when you think

you've seen it all, a right-click in the extension bar takes you to the source of these actions, so you can repeat them whenever you like. If you've got more than one tab open, you can easily switch back and forth to see what's going on with your downloads. Just press Ctrl+Tab to display the download bar across your browser windows. And yes, you can start them all at the same time. Download Master has a pretty clean and simple

user interface. You're able to filter, search and set the download preferences.

Download Master is a simple, fast and practical browser extension to download all your favorite web pages. 1.

Download Spark: The fastest way to download and manage your files in the cloud 2.
